All-America Winner for 1961
A large and handsome hybrid Camellia

Plants as Gifts

Roses, Camellias, etc., make delightful gifts to send at Christmas, on birthdays or any special occasions. Such gifts are lasting and become more beautiful as time goes along. Send us your card, or authorize us to write your name on a special one, and we will place in an envelope, attach to the plant, and ship according to your instructions. If you wish, we will forward transportation prepaid and bill you with the actual cost. Please send such orders as far in advance of shipping date as possible. The supplying of gift plants for our customers has become one of our specialties.

LOCATION, INVITATION, GUARANTEE, ETC. . . .

Location. Office, trial grounds and sales yard at city limits, east, at 1842 Smith Avenue. Leaving city limits, Smith Avenue becomes Boston Road and is a link of U. S. Highway 84.

Invitation to Visitors. Visitors are welcome at our nursery every day in the year, and there is no obligation to purchase. See Roses in the large Test Garden of Sam Hjort at 1840 Smith Ave., adjoining main nursery, April through October; Daylilies April through summer, and Camellias November through March. Flowering Trees, including a fine collection of Oriental Magnolias, are an added attraction.

Substitution. Usually we can fill order complete with first-choice varieties. But as the season advances, when a variety is sold out we will substitute one of equal or greater value, unless instructed not to do so.

Prices in this catalog cancel all previous quotations and are effective until a new catalog or price list is issued.

Minimum Order for us to prepay Roses, Daylilies and Liriope, \$3.50. Orders of less, please add 50c for postage and handling.

Guarantee. We guarantee all plants to be true to name, up to grade, properly dug and packed, and shipped according to instructions. Most people who pay their good money for plants set them carefully and tend them properly. Instructions for planting and care accompany every shipment. We do not make a blanket guarantee that our plants will live, but we will adjust satisfactorily any reasonable claim, provided losses are not from weather or other conditions beyond our control, and your claim is filed by July 1.

Visitors Please Note

We wish to serve everyone in turn and sometimes many cars are at the nursery at one time. In order that salesmen may know who is "next," please give your name at the office upon arrival. The ladies in the office will then see that you are served in turn and as quickly as possible consistent with adequate and courteous attention to all.

Foreword . . .

There is much to look forward to in new and outstanding Camellias in the months that lie immediately ahead. The very lovely Betty Sheffield Supreme, for which many have been waiting, is ready for distribution. Two new and superior seedling Camellias—King's Ransom, a Japonica from Magnolia Gardens, and Bonnie Marie, a hybrid from California, All-America Winners for 1961—are offered for the first time and are the finest to date of those run through a testing period of not less than five years from first flowering. Many of you saw these through the netting last winter in a fenced-off area reserved for Camellias of the Future. These and other choice new Camellias will be blooming again here, and plants are available.

The "Home of Roses" has a good claim to being also the "Home of Camellias," since from it have come some of the most esteemed varieties in circulation today, such as Marie Bracey, Pearl Maxwell, Sally Harrell, Betty Sheffield and its various sports, and other good ones.

Two new All-America Roses go into circulation this fall. We are especially pleased with the Grandiflora, Pink Parfait, a flower with a lovely blending of soft pink pastel shades, borne freely on a vigorous bush throughout a long blooming season. The past growing season has been a good one for Roses in the fields. The Old-fashioned varieties, most of them fragrant—and fragrance is a good quality in any Rose—and wonderfully well adapted to the Lower South including Florida, are some of the best bushes of these we have ever grown.

Although we put emphasis on our specialties, Roses and Camellias, we do grow many other plants, some in rather limited quantities not listed in this catalog, and we invite your inquiries. In late winter and early spring the fine collection of Oriental Magnolias is worth coming many miles to see. There is never a day in the year when there isn't something interesting in bloom to see. We like to have visitors, and you do not have to buy every time you come.

While we always like as many people to come to the nursery for plants as find it possible, we promise to faithfully give close attention to selecting and shipping plants ordered by mail. We are most grateful for the favors of the past, and we promise customers, both old and new, our best efforts to serve them well in the future.

A Word To Those Who Come on Sundays

Years ago we threw our grounds open to visitors not only six days of the week, but Sunday afternoons. (A few, very few, thought we included Sunday mornings.) It seems the Hjorts were born loving people. We like to share with others. We still want visitors to come, but must make some reservations. We work hard all during the week, have not made the kind of money that would enable each of us to take a day off during the week, and we need rest. And we have always felt the need for attending church services, as well as counting it a privilege to be in the house of worship.

The nursery is closed all day Sunday most of the year, but during the Camellia season, November 1 to April 1, we will be available on Sunday afternoons from 2 to 5 o'clock. The rest of the year, April 1 to November 1, you are still welcome to come Sunday afternoons to see Roses in the test garden and Daylilies in the adjoining woodland, and if none of the Hjorts are around, just stroll by yourselves, please. All varieties are marked with conspicuous name labels. May we respectfully remind you that flowers are just as lovely on other days of the week as on Sundays, and from 8 A.M. Mondays through 5 P.M. Saturdays we will be busy talking and selling plants. We are most grateful for friends and customers.

PINK PARFAIT
All-America Winner for 1961

HJORT'S

Fine New

CAMELLIAS

Thomasville is in perhaps the most favored locality for producing the finest Camellia blooms in America. Visitors have told us the finest quality of bloom they have seen is in the area of which Thomasville is the center—Albany, Cairo, Tallahassee, Quitman. Here we have conditions of climate and soil most favorable to growing quality plants, too.

Naturally, as an established and progressive nursery interested in the most distinctive flowering plants for this area, we have long been interested in Camellias. We are always procuring new varieties from other parts of the Camellia belt. And we have produced or distributed for other originators here, a goodly number of new varieties.

MARIE BRACEY

Lovely new light rose-pink Camellia. Blooms very early. Very hardy and showy.

Fine CAMELLIAS are a Specialty with us

With the coming of so much that is delightfully new in color and form, and the discovery that the bush is not exotic and tempermental, the Camellia has come to be the favorite flower of many gardeners of the Lower South, where it is an exciting and distinctive gem. Gardeners have found that when properly planted and cared for, but not pampered, the Camellia is an attractive evergreen bush to grace any setting, and with an advantage over other shrubs that hold their foliage in that it is radiant with bloom in all but the coldest days from October to March.

The growing of quality Camellias has long been a specialty with us. We raise these in our fields, in full sun, thereby making the stockiest and hardiest bushes. Lately we have put many of them into containers, to facilitate transplanting at any time. We are testing new Camellias all the time and this season offer an enlarged listing. Selected from many, many seedlings, we introduced last season two choice new varieties—Marie Bracey and Nannie Brown, and now present the very lovely Betty Sheffield Supreme and Marie Bracey, Variegated.

Visitors are invited to see a wide assortment of Camellias, old and new, around our office and on the grounds of the main nursery, at 1842 Smith Ave., which is the route of U. S. Highway 84, East. And for those who would buy plants, we have very good quality.

Marie Bracey. The finest early pink Camellia since the Daikaguras. A very lovely satiny pink with a sheen; semi-double in form, showing only a few short stamens interspersed in the petals. Of extra hardiness, here and in test gardens of several cities it came through the very severe cold of the last two winters unharmed, some of the late blooms being very large and lovely. Marie Bracey was best flower in the large Washington, D. C. Show, March 1960, winning in strong competition. Compact field and container-grown plants, 2-yr. grafts, \$12.50 to \$15.00; 1-yr. grafts, \$7.50 to \$10.00.

Marie Bracey, Variegated. A very lovely sport of a fine early Camellia. Satiny pink, flecked and splotched white. Has all the good qualities of its parent, Marie Bracey. 2-yr. grafts, \$12.50 to \$15.00; 1-yr. grafts, \$7.50 to \$10.00.

Nannie Brown. A large and beautiful light rose-pink semi-double with one compact ring of golden stamens in the center. It holds well on the bush, and has the appearance of being a glorified Beatrix Hoyt, itself an excellent Camellia. Foliage large and dark; bush vigorous, somewhat compact and rounded in growth. Stocky, field and container-grown plants, 1-yr. grafts, \$7.50 to \$10.00.

THOMASVILLE NURSERIES

Superb New Camellia

BETTY SHEFFIELD SUPREME

(See Color Illustration on Front Cover)

Betty Sheffield Supreme-TOPS

Mansfield Latimer, a distinguished Camellia fancier and former editor, has so well and beautifully expressed the charm of Betty Sheffield Supreme in a story appearing in the January 1960 number of the *Carolina Camellia Bulletin* (always a bright and informative publication) that we quote his story, written under the caption appearing at the top of this page, in the following paragraphs:

"There is an old saying that 'Seeing is Believing' or put it another way, 'You have to see it to believe it.' After you see the first bloom of Betty Sheffield Supreme you still can't believe it. It is so beautiful it doesn't seem real.

"In his recent article on Southern Gardens, John Marshall wrote, 'You see them with your own eyes . . . yet it is hard to believe what you have seen because they leave you speechless and words fail when you try to write about them.' This would be a perfect way to describe my reaction to the first Betty Sheffield Supreme. It is better not to try to describe it for words cannot do it justice.

"In order to bring you information on new camellias while they are still new, we frequently have to depend on what we read or what others tell us about the new camellias since we cannot personally see every new variety while it is still new.

"In the case of Betty Sheffield Supreme we had heard so much about it and the picture was so beautiful that we made a special trip to Thomasville, Ga., to see it in bloom.

"We were not disappointed for even the most beautiful picture on the cover of this Bulletin can but suggest the true beauty of this camellia, but it tempts me to say it is 'the' camellia.

"In the past, as new camellias, we have brought you information on new seedlings. Betty Sheffield Supreme is not a seedling but a sport of Betty Sheffield. This in itself is the highest recommendation, for the Betty Sheffield family is already recognized as one of the royal families of the camellia world and its performance has already been proven.

"The camellia Betty Sheffield is a 'sporting' camellia . . . now this fine variety has sported the Supreme . . . a definitely new color break in camellia flowers, a pure white with a narrow margin of deep pink, almost red, around the edge of each petal.

"There are camellias that excel this one as far as size is concerned and others that excel it in some particular features, but so far as sheer beauty is concerned, it will, as far as I am concerned be like the old song that said, 'You'll have to do until the real thing comes along.' To me it looks like the real thing."

Prices of Camellia Betty Sheffield Supreme

2-yr. grafts, 1st size, well branched, from containers, \$100.00 each.*

2-yr. grafts, 2nd size, fairly well branched, from containers, \$75.00 each*

1-yr. grafts, well branched, from containers and from field, \$50.00 each.*

1-yr. grafts, branched, from containers and from field, \$35.00 each.*

*All 2-yr. grafts were field grown, and dug and put into containers in October 1959, and practically all are set with flower buds. Most of our 1-yr. grafts are very good quality, grown in containers, but some fine plants to be dug from field.

The original BETTY SHEFFIELD
All the Sheffields are lovely.

Camellia

Ann Smith. A large and beautiful, very dark red Camellia originated by Mrs. J. W. Mann, of Valdosta, Ga. Flowers are frequently more than 5 inches across, and they come freely over a long season that begins in late November.

Barbara Woodruff. A lovely Elegans sport. Light orchid-pink outer petals and creamy white center petaloids with an occasional rose-pink petaloid.

Betty Sheffield. This charming Camellia, raised as a seedling by Mrs. A. B. Sheffield of Quitman and introduced by us a few years ago, has become one of America's leading varieties, being greatly prized from Norfolk to Texas, and on the Pacific Coast. Large, often 6-inch, very regular semi-double to loose peony form, white with occasional red or pink splotch or stripe. Petals slightly wavy; golden stamens interspersed among petals. The bush is a strong, vigorous grower, upright and compact, and the foliage is large and distinctive. Superior to many others of similar color.

PRICES OF CAMELLIAS Except as noted

Grafted Plants, Field Grown, Some in Cans

1-yr. grafts on 4 to 6-yr. stocks, B&B, \$5.00 to \$7.50

2-yr. grafts on 6 to 7-yr. stocks, B&B, \$10.00 to \$15.00

Except as noted

Crating charge for shipping, \$1.00 per plant extra

All prices are f.o.b. Thomasville, Ga.

Betty Sheffield, Blush.

A large and lovely sport of Betty Sheffield. Light pink; some flowers have deeper splotches, all have white edge. All are exquisite. Like its parent, this Camellia begins blooming in November and continues to March. The habit is

compact and shapely, the foliage large, dark green. An occasional bloom measures 6 inches across. Winner of top awards in many flower shows. 2-yr. grafts, \$12.50; 1-yr. grafts, \$7.50 to \$10.00.

Betty Sheffield, Pink. Solid deep pink sport; very fine flower. 2-yr. grafts, \$12.50; 1-yr. grafts, \$7.50.

Betty Sheffield, Variegated. Deep pink with flecks of white. Very attractive. 2-yr. grafts, \$12.50; 1-yr. grafts, \$7.50.

Bonnie Marie. Plant Patent No. 1801. All-America Winner for 1961. A strikingly beautiful hybrid Camellia bearing large, semi-double blooms freely over a long season that begins in January. The large, wide petals are a clear, light pink; short, golden stamens are in the center of the bloom and interspersed among petals. The long, dark green leaves are an added attraction. Bonnie Marie is quite a superior hybrid, having the largest flowers of any such varieties, and those who have seen it in our test grounds have greatly admired it. See illustration on page 2. 2-gal. cans, grafted, \$7.50 to \$10.00; 18 to 24 in., B&B, \$10.00; 24 to 30 in., B&B, \$15.00.

C. M. Wilson. Sport of Elegans (Chandler), and exactly like parent except that it is a clear, even shade of light pink.

Aaron's Ruby. Bright red, very large, semi-double to anemone form. While vigorous, it is usually of slender, somewhat pendulous growth, but our field-grown plants are above the average for sturdiness. A worth-while Camellia.

Adolphe Audusson. Generally considered the finest semi-double, dark red Camellia in which stamens are one compact ring in center of bloom. Heavy, dark green foliage.

Adolphe Audusson Special. Loveliest variegated form of Adolphe Audusson. Our plants are grafted from scions especially selected for having a predominance of white. Many blooms show waves of marbling.

Alba Plena. Still the acme of perfection in double-flowering Camellias. Many double white Camellias have been created, but none of such form as to equal Alba Plena. Pure paper-white. Ours are grafted plants, far above the average for shapeliness and hardness.

Angel. White; large semi-double with fluted petals. Compact, vigorous growth. 1-yr. grafts, \$10.00.

Angel's Blush. A very lovely miniature. Very small, semi-double, light pink, having the appearance of a tiny Pink Perfection.

Ann Miller. A lovely new pale pink peony-form. Large flower; vigorous bush.

JAPONICA

Coral Pink Lotus. Large and showy semi-double coral pink with deeper pink veins. Very fine. 2-yr. grafts.

Coronation. White. Very large, semi-double. Vigorous, open, spreading growth. 1-yr. grafts, \$10.00.

Daikagura. Long the standard extra-early Camellia of the South. Often in bloom before end of September at Thomasville, continuing to early winter. Available in solid deep pink, and in variegated.

Daikagura, Ward's Variegated. A very showy Daikagura with most white petals; very select.

Dear Jenny. Pure white, semi-double, large. Vigorous and compact growth. One of the best seedlings of C. W. Hand, Pelham, Ga., and named in honor of his grandmother, Mrs. Hollis, of Americus, Ga. Mr. Hand has raised many seedlings, and some good ones never went into circulation, but this nice one was worthy to honor a lovely lady of the South who lived to be 100 years of age.

Dian Hartman. A lovely new Camellia. White with a slight fleck of deep pink to red. Large, semi-double, with irregular petals to anemone-form. Medium, upright growth; blooms in midseason. 1-yr. grafts, \$7.50 to \$10.00.

Doris Freeman. Large; semi-double to peony form. Rose-pink, marbled and blotched white. Compact, upright growth. One of the best new Camellias. 2-yr. grafts.

Drama Girl. One of the great Camellias of all time. Very large, semi-double, deep salmon-pink. Vigorous growth, large dark foliage. Grafts only.

PEARL MAXWELL

Best large late pink Formal

THOMASVILLE, GEORGIA

SHIRO-CHAN. Valuable new white Camellia

Dr. Knapp. The extra-large, deeply serrated, dark green leaves make this Camellia outstanding, although the deep red flowers are fairly good. 1-yr. grafts only.

Dr. Tinsley. Very light pink at base, shading to deeper pink; semi-double. Truly one of the loveliest of all Camellias. \$2.50 to \$7.50.

Emily Wilson. A delightful light pink Camellia. Large; semi-double to loose peony form with mixed petaloids. Vigorous; compact, upright in growth.

Eugenia Howell. A very showy Mathotiana sport. Deep pink to red, often splotted and flecked white. Very large, peony form, with intermixed petaloids and stamens.

Florence Stratton. White with some petals pink. Large, formal to rose-form double with cupped inner petals. Vigorous, bushy growth.

Flowerwood. A distinctive Mathotiana sport, with petals fimbriated.

Frank Gibson. A most distinctive Camellia, different from all others. Pure white, anemone form, with a large mass of golden-edge petaloids in center. The most yellow of any Camellia to date. Vigorous bush; profuse bloomer

Frosty Morn. A very large white anemone to peony form with beautiful long, narrow, slightly twisted foliage. Medium, open, upright growth. Very good.

Gulio Nuccio. A very large Camellia of unusual beauty. Semi-double, coral-rose, with 12 to 15 wavy petals and 3 to 5 large rabbit ears. Vigorous growth, dark green foliage. 2-yr. grafts, \$12.50 to \$15.00; 1-yr. grafts, \$10.00.

High Hat. Very lovely, light pink sport of Daikagura, with all the good qualities of its parent.

Camellia

SALLY HARRELL. Lovely white Debutante form

than just the shortest stems. Disbudding is recommended, as with most Camellias, where blooms of largest size are desired for exhibition. Here is a new Camellia that has come to stay. See illustration on back cover. 2-yr. grafts from large cans and field, 18 to 24 in., \$10.00; 24 to 30 in., \$15.00; 30 to 36 in., \$20.00; 3 to 4 ft., \$30.00. 1-yr. grafts from cans, \$7.50 to \$10.00 each.

Kramer's Supreme. Plant Patent 1583. Turkey-red. Very large, peony form with mixed petals and petaloids of full form. Vigorous, compact, upright growth. 1-yr. grafts, field grown, or from egg cans, \$10.00.

Hishi-Kairito. Delicate pink miniature; semi-double with mixed petaloids and stamens.

Indian Summer, Variegated. One of the best of the many Daikagura sports. Lighter shade of pink than in Daikagura, Variegated. 2-yr. grafts only.

Joshua Youtz (White Daikagura). One of the largest pure white Camellias. Blooms very early and continues far into the season. Bush vigorous and hardy.

Kate Smith. An unusual Mathotiana sport. Bright red shading to light lavender, sometimes variegated white. Very large, loose peony form, with petals and petaloids interspersed with stamens. Very showy. 3-yr. grafts, \$30.00; 2-yr. grafts, \$15.00; 1-yr. grafts, \$10.00.

King's Ransom. Plant Patent 1800. All-America Winner for 1961. A fascinating pale Debutante pink flower, turning slightly darker as it ages; size averages 4½ inches, although some flowers are well over 5 inches on well-grown plants. The form is loose peony to semi-double; blooms freely on mature plants. Begins flowering in midseason and is exceptionally cold resistant. It is easily the finest Camellia to win an All-America award. King's Ransom is an upright, fast-growing *Camellia japonica* offering much in landscape possibilities. Being a rapid grower, it produces a heavy, long-lasting crop of blooms on exceptionally long branches.

The blooms are of corsage quality, suitable not only for bridal accessories, but equally well for shoulder, hair or wrist piece. They are produced in such profusion and on such long branches that a most generous table or room arrangement can be made several times during the season without the damage generally incurred on most varieties by cutting more

Light Gigantea. Mostly white, some red markings. A strikingly handsome Gigantea sport. Our propagations only from whitest flowers.

Mabel Blackwell. White flowers about 5½ inches in diameter, shading to soft pink on the margins of the fluted petals. 2-yr. grafts.

Margaret Waterhouse. Light pink; medium semi-double. Vigorous, upright growth. Early. This cross of *Camellia japonica* and *C. saluenensis* is a nice flower, quite an improvement over earlier hybrids. Large 2-yr. grafts, \$12.50.

Mathotiana (Mathotiana Rubra, Julia Drayton, Purple Emperor). Deep crimson, often with purplish cast that adds to its brilliance. The standard of perfection for large, full (formal) double Camellias. Own-root and grafts, \$2.50 to \$10.00.

Mathotiana Rubra, Variegated. Like above, but mottled white.

Mathotiana Rosea (Rosea Superba). Lighter than Mathotiana; very good.

Mathotiana Rosea, Variegated. Like above, but nicely marked with white.

Mathotiana Supreme. One of the great and outstanding Camellias of all time. A sport of Mathotiana producing large, loose peony-form flowers interspersed with showy golden stamens.

Mattie O'Reilly. Coral-rose-pink. Very large peony form, with some petaloids. Healthy bush, but develops slowly. Give it time and it will produce large, strikingly beautiful flowers.

Mrs. D. W. Davis. Largest of all *Camellia japonica*; some flowers measure 8 inches across. Semi-double form; lovely very light pink color. Large, dark green foliage. This is a great Camellia everybody should have, and we have excellent, sturdy, field-grown bushes. 2-yr. grafts, \$20.00 to \$25.00; 1-yr. grafts, \$7.50 to \$12.50 each.

JAPONICA

Mrs. Lyman Clarke. Very light pink. Medium large, semi-double to peony form. A lovely flower on an extremely hardy bush. Blooms in midseason.

Nina Avery. Lovely light pink with white stamens, tipped brown. Medium, semi-double to loose peony-form flowers with crinkled, erect center petals irregularly interspersed with stamens.

Oneita Holland. A most outstanding white Camellia. Very large, semi-double to peony form, with loose petals and showy golden stamens. 1-yr. grafts, \$7.50 to \$10.00.

Pearl Maxwell. Light pink imbricated formal double. Large, sometimes $5\frac{1}{2}$ inches across. Late bloomer. Heavy, dark green foliage; erect uniform bush. A chaste and beautiful Camellia. See illustration on page 7. 1-yr. grafts, \$7.50.

Pink Champagne. Soft pink. Very large, semi-double with irregular petaloids. Vigorous, upright growth. A valuable addition to newer Camellias.

Sally Harrell. Almost a perfect White Debutante. Habit of growth and early flowering like it. One of the best Camellias from Thomasville. 2-gallon, own-root, \$2.50.

Starlet. Rose-pink. Very lovely miniature with incurved, star-like petals.

Tomorrow. One of the most notable of Camellia introductions in recent years. Raised as a seedling by Mrs. Ross Hayes, of Thomasville. Very large, semi-double to loose peony-form flowers, often 6 inches across, sometimes deep pink at the beginning of the flowering season but usually light red. Produced rather freely for a Camellia of its size, on a strong, symmetrical bush with dark green foliage. Like the other Camellias we grow, our plants of Tomorrow are all field grown, on large stocks, and the quality is well above the average.

VISIT THE THOMASVILLE CAMELLIA SHOW

**Saturday and Sunday
Jan. 14, 15, 1961**

The Thomasville Show is always one of the largest and most beautiful. Come and see a wonderful assortment of lovely Camellia varieties, including many that are new.

Ville de Nantes, Light Strain. All plants were grown from scions where flowers were mostly white. This does not guarantee absence of some dark flowers, but does give a superior type. Ville de Nantes has been called the world's No. 1 Camellia, for it wins more ribbons than any other variety.

White Empress. Very large, semi-double, pure white with golden stamens. Fairly early; very hardy for a white Camellia.

Wildwood. One of the choicest of recently introduced light pink Camellias. Very large, semi-double to peony form; light rose-pink. Upright, compact growth.

Join

THE AMERICAN CAMELLIA SOCIETY

Annual Membership dues are \$6.00, for which you will receive the instructive Annual issued by the Society, as well as the American Camellia Quarterly. Address American Camellia Society, Box 465, Tifton, Georgia.

Camellia Scions

We sell scions of all Camellias we have, except patented varieties. There are many choice ones, old and new. Scions are cut from vigorous stock plants. Ask for price list.

STARLET
Exquisite New Miniature Camellia

TOMORROW. Very large and handsome

OWN ROOT CAMELLIAS

Sturdy, vigorous plants, some with flower buds. Excellent values

Varieties in 2-gallon cans at \$2.50 each:

Alba Plena, Adolphe Audusson, Arajishi, Aunt Jetty, Betty Sheffield, Bryan Wright, C. M. Wilson, Daikagura, Daikagura Variegated, Debutante, Elegans, Empress, Ethel Davis, Flowerwood, Frosty Morn, High Hat, Herme, Haku-Rakuten, Joshua Youtz, Lindsay Neill, Mathotiana rubra, Mathotiana Supreme, Magnoliaeflora, Mrs. Charles Cobb, Rose Dawn, Shiro Chan, Simeon, Thelma Dale, Tomorrow, Victor Emmanuel, Victory White, White Empress.

Varieties in 2-gallon cans at \$3.50 each:

Blush Betty Sheffield, Dr. Tinsley, Frank Gibson, Pink Champagne, Winifred Womack, Wildwood.

Varieties in 2-gallon cans at \$5.00 each, very select from field grown plants, well established:

Betty Sheffield, C. M. Wilson, Daikagura, Daikagura Variegated, Haku-Rakuten, Mathotiana Supreme, Mrs. Lyman Clarke, Tomorrow and Sasanqua Sparkling Burgundy (All-America Winner for 1960). Many of these have flower buds.

Varieties in 5-gallon cans at \$7.50 to \$10.00 each, very select from field grown plants: Betty Sheffield, Mrs. Lyman Clarke, Tomorrow and Sasanqua Sparkling Burgundy. Practically all these 5-gallon Camellias are well budded.

All Camellia prices are f.o.b. Thomasville. Please add 50c per plant for crating 2-gallon size, \$1.00 per plant for 5-gallon size.

MANY OTHER *Fine Camellias*

In limited supply, some field grown and others in containers, we have many choice Camellias not described in this catalog, including Adah Pieper, Alba Fimbriata, Anita, Anita's Triumph, Ann Fowler, Ann Smith Variegated, Ann Wahl, Aunt Jetty, Beatrix Hoyt, Beatrix Hoyt Variegated, Billie McCaskill, Brehm's Madonna, Bride's Bouquet, Brilliant Review, Bryan Wright, Caroline Browne, Caroline Browne Variegated, Charlotte Bradford, Cho-no-Hanagata, Clara Green, Comte de Nesselrode, Clarice Carlton, Coral Pink Lotus Variegated, Daitairin, Debutante, Donckelaari, Don-Mac, Donna Kaye, Drama Girl Variegated, Edelweiss, Eleanor Franchetti, Elegans (Chandler), Elizabeth Holmes, Emmett Barnes, Ethel Davis, Ethel Davis Variegated, Flora Hollingsworth, Frank Baker, Frank Eidson, Frizzle White, Geisha Girl, Ginger, Gold Dust, Gulio Nuccio Variegated, Haku-Rakuten, Herme, Irene Coker, Irene Rester, Island Echo, Jack McCaskill, Joyce Butler, Judge Talbot, June McCaskill, Kate Thrash, Kate Thrash Variegated, Lady Clare (Empress), Lady Clare Variegated, Lallarook (Laurel Leaf), Laura Walker, Laura Walker Variegated, Lynne Woodruff, Majorette, Margaret Tourje, Maylene Wong, Miss Frankie, Mrs. Shepherdson, O. C. Cotton, O. C. Cotton Variegated, Pink Ice, Princess Lavender, Reg Ragland, Richard Nixon, Rose Gish, Sadie Mancil, Scheherezade, Silver Betty Sheffield, Stella Sewell, Sugar Babe, Sunset Glory, Sunup, Tinsie, White Fairy, Winifred Womack, Winter Morn. And we have from one to three plants of 60 others.

Miscellaneous Plants

In limited supply we have a good assortment of **Kurume** and **Indica Azaleas**, **Oriental** and **Evergreen Magnolias**, **Tea Olives**, **Hollies** and many other plants, offered to those who will call at the nursery. There is fine quality, and prices are reasonable.

Violet plants, large purple **Gov. Herrick**, 12 for \$1.50; 50 for \$5.00; \$8.50 per 100, postpaid. **Stokesia plants**, 25c each; 12 for \$2.50; \$20.00 per 100, express collect.

DUET. New All-America Winner for 1961

Hybrid Tea Roses

These are the large and lovely exhibition Roses

Throughout the years, largely because others usually discussed Hybrid Teas, we put emphasis on Floribundas, Grandifloras and Old-Fashioned Roses. We have been asked if we were really interested in Hybrid Teas.

We try to serve Rose gardeners well, and we are immensely interested in Hybrid Teas. The Hjorts have always loved them—like to grow, exhibit and talk about them. We recall the old days of the first Hybrid Teas and the thrill that came with Radiance, the first of the Tea-like hybrids for the Lower South. And, along with many other people, the thrill at the first sight of Peace, still rated the World's No. 1 Rose. And what an impression a new color like Aztec makes! And several years ago the thrill of the delightful two-tone Kordes Perfecta, and later the very lovely Garden Party, which we were privileged to grow in our test garden and which last year went on sale for the first time.

KORDES PERFECTA
Charming new two-tone
Rose

All the Rose bushes look fine this season. If there is any difference, it is in favor of the Hybrid Teas.

In limited supply we have other varieties than those listed here. We invite and welcome correspondence about any and all Roses.

We ship Rose plants from November 1 to March 31. A minimum order should be \$3.50. Otherwise please add 50c for postage and handling.

Hybrid Tea Roses

Aztec. Plant Patent 1648. Deep, rich, intense scarlet-orange. The fine buds and large, shapely flowers are near perfection in form; the plant is vigorous and well foliaged. Whoever said the best red Roses are pretty much the same color ought to see this one; it is so different from any other. Anybody will love this one. \$2.75.

Briarcliff. Rose-pink; large, double, fragrant. Stiff stems; good growth. \$1.25.

Burnaby. Plant Patent 1314. Gorgeous light yellow blooms of finest exhibition size. Long, tapering buds and large flowers on stiff stems. Bush is sturdy and vigorous. \$2.50.

Charlotte Armstrong. A truly great Rose, second only to Peace in national popularity. Buds long pointed, carmine-red; open flower cerise. Long stems; vigorous growth. Should be in every collection of Hybrid Tea Roses. \$1.75.

Chrysler Imperial. Plant Patent 1167. Perhaps the finest dark red Rose to date. Vivid crimson with darker overtones; large, very double; spicy fragrance. Compact, sturdy growth. \$2.50.

Confidence. Plant Patent 1192. A new Rose from the originator of Peace. This is a peach-toned pastel flower of always notable form. It has long, streamlined buds and large double flowers on strong stems. \$2.50.

AZTEC
New glowing orange-scarlet

CORONADO. Fine new bicolor Rose for 1961

Countess Vandal. Coppery salmon-pink; long-pointed buds and large, high-centered flowers on stiff stems. Vigorous and outstanding, and always a favorite at Thomasville, where many varieties are grown. \$1.50.

Coronado. Plant Patent Applied for. Strikingly showy buds of red flushed copper-orange to yellow, opening to large blooms of light red, often deep pink. In our test garden the large flowers and vigorous bush have been much admired. New for 1961. \$3.50.

Crimson Glory. All the name implies. Deep crimson-red; very double; highly fragrant. In a popularity contest the country over, it stood with Peace and Charlotte Armstrong to comprise the top three. \$1.50.

Dainty Bess. Large, single, wild-rose-pink flowers in clusters. Bush vigorous; continuous bloomer. One of the loveliest of all Roses. \$1.50.

Duet. Plant Patent 1903. All-America Winner for 1961. Inside petals are soft salmon-pink; reverse is deep pink to bright crimson. Retains its color from bud until petals drop. Vigorous, free branching and free blooming. Excellent for cutting. See illustration on page 11. \$3.50.

Eclipse. Long, streamlined buds of deep yellow. Vigorous and thrifty, with abundant foliage. Easily the best non-patented yellow for the Southeast. Has won many American and European awards. \$1.25.

All \$3.50 Roses are 3 for \$9.20, 6 for \$18.40

All Rose Plants shipped postpaid

Editor McFarland. Deep pink, comparable to Radiance in growth and flowering. Some stems produce one large flower, but often many stems produce flowers in clusters. If it were a new Rose it would be a Grandiflora, for \$2.50, perhaps \$3.00. As it is, it is \$1.25.

Etoile de Hollande. Brilliant crimson. Large, fairly double, fragrant blooms on long stems. Vigorous; continuous bloomer. The most generally successful and satisfactory of non-patented red Roses. \$1.25.

Golden Dawn. Bud is sunflower-yellow, flushed with old-rose; flower very double and fragrant, borne on stiff stem. A vigorous bush with abundant foliage. If it were a new Rose we feel sure it would be an All-America Winner for \$2.50, perhaps more. \$1.50.

Garden Party. Plant Patent 1814. One of the loveliest Roses ever created, a successful cross of Charlotte Armstrong and Peace. In our test garden for three years, it was the most admired of all the varieties. The blooms are a combination of soft pastels. The rich ivory center becomes creamy, finally flushed with apple-blossom-pink. The flower is huge, often as large or larger than Peace, yet it has a beautiful long bud and marvelous form. It is at its best when fully open. Stems are long and sturdy. The plant is well balanced and vigorous, branching freely and providing almost, continuous bloom. Large, dark olive-green foliage. See illustration on page 16. \$3.00.

Helen Traubel. Plant Patent 1028. All-America Winner for 1952. A beautiful Rose of vigorous growth, producing many blooms on good stems; long-pointed buds. Color varies with the weather; sometimes it is a lively light pink, often it is salmon-pink or apricot. Always lovely. See illustration on page 14. \$2.75.

© ECLIPSE
The streamlined Rose

Kaiserin Auguste Viktoria. White, with slight lemon tint in center. Beautiful bud and large double flower. Some stems produce one large bloom, others produce clusters like a Grandiflora. The most satisfactory of the white non-patented Hybrid Tea Roses. \$1.25.

Killarney Queen. Finest of all the Killarneys. Deep rose-pink, semi-double; lasting. \$1.50.

Kordes Perfecta. Plant Patent 1604. A leader in beautiful and unusual new Roses. An intriguing color combination, completely different from any other variety. The buds begin to show color as petals separate and from then on it is a constantly changing picture—cream-white, lined pink and carmine at edges, deepening throughout as the flower opens to a most pleasing and alluring combination of pink and white suffused with yellow. See illustration on page 11. \$3.50.

You are invited to come and see the many roses blooming in our large Test Garden, late April until frost.

WE SHIP ROSE PLANTS FROM NOVEMBER 1 TO MARCH 31

A minimum order should be \$3.50. Otherwise please add 50c for postage and handling.

THOMASVILLE, GEORGIA

Hybrid Tea Roses

HELEN TRAUBEL
All-America Winner 1952
Exquisite flower; vigorous bush

Light Editor McFarland. One of the very finest and most dependable Roses for the South. It is our own light pink sport of Editor McFarland. In growth and habit is exactly like the parent bush, but the flower is lighter and considered by many to be more beautiful than the original. This Rose does exceptionally well in Florida and the Gulf coastal area. \$1.50.

Mirandy. Plant Patent 632. Very large, double, dark garnet-red; highly fragrant. Upright and vigorous in growth. Usually produces one flower to a stem, eliminating disbudding and always producing specimen blooms. At Thomasville, where many varieties have been tried, it is a favorite dark red. \$2.25.

OFFER NO. H-2**

Mission Bells. Plant Patent 923. All-America Winner for 1950, and one of the most vigorous and rewarding of Roses. Deep shrimp-pink buds, opening to large, salmon-pink flowers. Strong, branched growth, constantly in bloom. Anyone who can grow Roses at all can grow Mission Bells. For its many good points it deserves a place in every garden. \$2.00.

Mrs. Charles Bell. Sport of Radiance, and identical with parent in vigorous growth, freedom of bloom and size of flower. Always dependable, always satisfactory, and easily the best of its color, shell-pink, for the South. \$1.25.

Nocturne. Plant Patent 713. Deep cardinal-red; long-pointed buds and large flowers on stiff stems, usually one perfect flower to a stem. Most vigorous of dark reds at Thomasville. In a close race with Mirandy and Crimson Glory, Nocturne is first in popularity in the Southeast. \$2.25.

Peace. Plant Patent 591. World's No. 1 Rose. Winner of all top national awards in America, France, England and other countries, and blue ribbons and sweepstakes in shows everywhere. Peace is a strong grower, with large, handsome foliage and produces very large, very double and lasting flowers of soft yellow, flushed and tinged pink. An exquisite Rose. See illustration on page 16. \$2.50.

Picture. Long-pointed buds and double, fragrant, rose-pink flowers, produced on a strong bush. An attractive flower for cutting, with good substance and long-lasting qualities. A Southern favorite. \$1.50.

SUTTER'S GOLD

Champion winner of American and foreign awards. A great Rose of striking color

Hybrid Tea Roses

Poinsettia. Distinctively different from other reds in color and foliage. Poinsettia-scarlet, double blooms, borne on strong stems. Large foliage; vigorous bush. \$1.25.

President Herbert Hoover. Flame-pink, scarlet and yellow; long-pointed buds on heavy, stiff stems. A good Rose, honoring a sound and patriotic American. \$1.25.

Radiance. The great, dependable favorite of the South. Carmine-pink blooms on strong stems. A vigorous, free bloomer over a long season. It may be a lazy gardener's Rose, but everyone loves it for its admirable qualities. \$1.25.

Red Radiance. Easily the most generally planted red Rose in the South for like its parent Radiance it is practically perfect in size, stem, growth, freedom of bloom and persistency. \$1.25.

Rubaiyat. Plant Patent 758. Here is a large Rose fully as vigorous as Radiance. Large, cerise-red buds, opening to rose-red flowers. The strong bush produces many fine flowers on strong stems; large foliage. Has become a great favorite. \$1.85.

Soeur Therese. Long-pointed, chrome-yellow buds, opening to daffodil-like flowers. A favorite in many localities. \$1.25.

Sutter's Gold. Plant Patent 885. Long-pointed, bright yellow buds shaded orange. Vigorous, free branching and fine for cutting. \$2.25.

ASK FOR OFFER NO. H-1

Sunlight. Plant Patent 1576. Perhaps the finest yellow Rose in years; during the test years it always scored high with us. Bud fine pointed opening to a most strikingly beautiful and shapely flower of deep, clear yellow. The foliage is large and attractive, on erect, well-balanced plants. \$2.50.

The Doctor. Sparkling pink, pointed bud; large, rose-pink flower. Does not grow fast first year; afterward is large, thrifty and outstanding. For those who can exercise a little patience and give it a little extra care it usually becomes a most charming and appreciated pink Rose. \$1.50.

Tiffany. Plant Patent 1304. All-America Winner for 1955. A strikingly beautiful warm pink Rose, shading to yellow at the base. Lovely, long-pointed buds, opening into large, double flowers that last well; produced on strong, stiff stems. The bush is of vigorous growth; the bloom is plentiful. Favorable reports from tests here and the entire Southeast show that it is dependable. We highly recommend this Rose and believe that Tiffany has come to stay a long, long time. \$2.75.

ASK FOR OFFER NO. H-3

The greatest All-America Winners seem to come along about five years apart, such as Peace (1946), Fashion (1950), Queen Elizabeth (1955) and Garden Party (1960). Anyone will enjoy these Roses!

White Knight. Plant Patent 1359. A fine new Rose, the first white Hybrid Tea to be chosen in the history of the AARS. It is a splendid Rose for cutting purposes, with long-lasting flowers. The buds are long-pointed, and the blossoms are soft satin-white on the inside and shining white on the outside. \$3.00.

Yellow Talisman. Buds golden yellow, long pointed; flowers somewhat lighter. Very successfully grown at Thomasville. Bush is vigorous, superior to its parent. \$1.25.

See Roses Here

As this catalog goes into the mails, Roses are blooming profusely in our large Rose test garden and in the fields, and we urge all those who would like to see many varieties from some of the oldest to the very newest, to come by and see us in September or October. You don't have to buy every time you come here. Come and enjoy this very lovely and colorful upsurge of fall bloom with us!

All-America
Winner 1960

The very lovely and
vigorous new Rose,
GARDEN PARTY

Grandiflora

ROSES

Combining the beautiful form of the Hybrid Tea and the abundance of bloom of the Floribunda, the Grandifloras are the new super Roses. To the excellent varieties catalogued last year, we have added the intriguing new Pink Parfait. All the Grandifloras are vigorous in growth, producing flowers on stiff stems, sometimes singly and sometimes in clusters, from spring until late fall.

JUNE BRIDE

Rank in growth, profuse in bloom

Carrousel. Plant Patent 1066. One of the showiest and most satisfactory of dark red Roses to date. Very vigorous in growth; branching and free flowering. Large blooms for a cluster variety; some blooms on single stems; color is non-fading. Carrousel thrives in many sections of America; often does remarkably well under adverse conditions. It has recently won the Gold Certificate of the American Rose Society, one of the Rose world's top honors. \$2.00.

We ship Rose plants from November 1 to March 31. A minimum order should be \$3.50. Otherwise please add 50c for postage and handling.

Anyone will enjoy a visit to our Rose Test Garden, April through October.

Pink Parfait. Plant Patent 1904. All-America Winner for 1961. A soft blending of pastel pink shades makes this new Rose a truly delightful one. Petite buds, ever perfect in form, vary in color from dawn-pink to rich apple-blossom-pink. In the marvelous Grandiflora manner, the blooms are produced in enormous quantities over a long season in our Southland. The plant is vigorous, as a Grandiflora should be. For its attractive and "different" color and great freedom of bloom, it has been much admired in our test garden and field the past season. \$3.50.

PINK PARFAIT
All-America Winner for 1961

GRANDIFLORA ROSES

BUCCANEER

Holds its color in hottest sunlight

Buccaneer. Plant Patent 1119. Brilliant and non-fading yellow, without a tinge of other color. Holds color well throughout hottest summer weather. Vigorous Grandiflora bush; long stems; pointed buds and good open flowers. \$2.50.

Golden Girl. Plant Patent 1912. A valuable new yellow Grandiflora. Long-pointed buds and large golden flowers are abundantly produced on a well-branched and vigorous bush. A touch of fragrance adds to the charm of the flower. Those who love yellow Roses—and who doesn't?—should make this their next new one. \$3.00.

PRICES ON GRANDIFLORA ROSES

All \$2.00 Roses are 3 for \$5.25, 6 for \$10.50

All \$2.50 Roses are 3 for \$6.60, 6 for \$13.20

All \$3.00 Roses are 3 for \$7.95, 6 for \$15.90

All \$3.50 Roses are 3 for \$9.20, 6 for \$18.40

All Rose plants shipped postpaid.

June Bride. Plant Patent 1770. Strongest grower of all white bush Roses. In our test garden it is 8 feet tall. Large, long-pointed buds opening to large, high-centered, white flowers tinged cream at base, mostly in clusters. Continuous, profuse bloom. See illustration on page 17. \$2.50.

Montezuma. Plant Patent 1383. A fine Rose bringing new color to the Grandiflora class. For quality of bloom, vigorous growth and continuous flowering, we think this variety has come to stay. Long-pointed, orange-scarlet buds open to salmon-orange blooms of good substance on long stems. \$2.75.

Queen Elizabeth. Plant Patent 1259. All-America Winner for 1955. A very lovely Rose, honoring a very lovely lady! This pure pink Rose is one of the finest varieties ever introduced in America. Not every All-America winner in the past has thrived in the South, but this one is well-nigh perfection. In test gardens in all the Southern states it has shown excellent growth and flowering qualities. Queen Elizabeth is a charming color, a blending of carmine-rose with dawn-pink. It is a profuse bloomer and of the most vigorous growth. It is a development of the noted hybridizer, Dr. Walter Lammerts, who calls it his finest creation, which is putting it strongly, for he has given us such other splendid Roses as Charlotte Armstrong and Chrysler Imperial. Everyone will love Queen Elizabeth! \$2.50.

Roundelay. Plant Patent 1280.
A dark red Rose of much merit and a fine addition to the Grandiflora class. From one of its parents, Charlotte Armstrong, it inherits beautiful form at all stages. From Floradora, the other parent, comes the characteristic of blooming very freely and lasting well. Stems are long and strong enough for cutting. Flowers, some on single stems, some in clusters, are delightfully fragrant. A vigorous, rapid grower with ample, dark green foliage. \$2.50.

What those who have become acquainted with Floribunda Roses like so much about them is that in the Lower South, including Florida, they are the easiest to grow, almost like common shrubs. And who could ask more of a plant that blooms all season, as does the Floribunda, beginning the first spring and continuing year after year.

Aside from the sturdiness and ease of culture that make them wonderful for beds and borders, Floribundas come in a very wide range of color, make lovely cut-flower arrangements and as such last very long. No wonder people are saying, "Floribundas are Fascinating."

CHIC. Double, fragrant, lasting

Amy Vanderbilt. Plant Patent 1585. Here is a more double Rose in the new lavender-lilac shade; in our garden the most admired of these. Blooms well on a very vigorous bush. Lovely with yellow or light pink varieties, or just by itself. \$2.25.

Bouquet. Large clusters of semi-double, deep pink bloom. Long lasting as a cut flower. Large, attractive foliage. A very desirable Floribunda. \$1.50.

Cecile Brunner. The "Sweetheart Rose." One of the treasures of old Southern gardens, just as valued today as in the past. It is a Tea-Polyantha that develops into a large, vigorous bush, producing an abundance of very small, double, light pink blooms in clusters over a long season. \$2.00.

Crimson Rosette. Plant Patent 901. Coiled "rosette" shape; deep red, very double flowers in clusters on stiff stems. As a bedding variety it is superb, but it has much merit as a long-lasting cut flower. This variety is something new and charming in Floribundas, and worthy of a place in any garden. \$1.50.

Chic. Plant Patent 1286. A Floribunda of exceptional merit for the South and perhaps for other sections. It is a Rose of perfect Floribunda characteristics, much branched, vigorous, flowering freely in clusters. The color is salmon-pink in the bud stage, becoming bright pink with faint salmon shading. In our test garden and nursery fields it bloomed right on through the hottest weather, and we have seen it performing well in Alabama, Florida and North Carolina. For those who like double pink bloom of practically the Ma Perkins color but borne in greater profusion, on good stems fine for cutting, this is a very nice new Floribunda. \$2.00.

Dagmar Spath. Pure white flowers. Free flowering, producing masses of bloom with golden stamens. An ideal bedding Rose of medium height. \$1.50.

Donald Prior. A perfect Crimson Glory deep red color, producing great masses of bloom over a long season, right on through the hottest summer weather. Very vigorous. A great favorite in the Lower South, and rightly so, for it is always showy and easy to grow. \$1.50.

Else Poulsen. One of the older Floribundas, but widely grown because it is a most satisfactory performer. The semi-double, bright rose-pink flowers are carried on erect, strong plants. Good for a hedge or as a bedding variety; also good for cutting. \$1.25.

ELSE POULSEN
 Very lovely and prolific

FLORIBUNDA ROSES

Eutin. Buds pointed; flowers cupped, double, glowing carmine-red. Very vigorous, with dark foliage. \$1.50.

Fashion. Plant Patent 789. Buds Oriental-red, opening to a luminous pink, overlaid with gold, becoming coral with age. The bush is vigorous and branching in habit, and blooms all through the Rose season. All the praise continually heaped on this Rose is well deserved; its popularity increases and it is a favorite wherever grown. \$2.00.

Fire King. Plant Patent 1758. All-America Winner for 1960. One of the finest Floribundas ever produced. The color is spectacular—coral-vermilion, and the medium-sized, extremely double flowers in clusters are very striking. As a cut flower under artificial light at night it fairly shines. Blooms through the hottest weather. The strong plant has stood out in our test garden for several years. The dark green foliage fills out the plant to give it a well-rounded appearance. You will like Fire King. \$2.50.

Floradora. Constantly in bloom and an entirely new shade in Roses—a brilliant cinnabar-red, as arresting under artificial light as in the garden. Floradora blooms are always eye-catchers; everyone stops to admire them. As a cut flower it is exceptionally long lasting. Floradora should be in every Floribunda garden. \$1.25.

Frensham. Deep crimson-red flowers of medium size, borne in typical Floribunda clusters. Very compact and branching growth, making it an excellent border, hedge or bedding variety. Sturdy in growth and constant in bloom. \$1.25.

Geranium Red. Plant Patent 811. One of the most unusual and most admired red Floribundas at Thomasville. In color it is all the name implies, and the flowers are somewhat larger than most varieties of this group. The camellia-like flowers are a vivid, bright, geranium-like red, and no picture does it full credit. The bush is a strong one, flowering from spring till late fall in the South. As a bedding Rose and as a cut-flower variety, this distinctively different Floribunda has been much praised by many who have grown it. See illustration on page 22. \$2.00.

FIRE KING
A glowing color All-America Winner 1960

Goldilocks. Plant Patent 672. The buds are miniatures of Hybrid Tea perfection, opening into fully double, golden flowers. The bush is of strong and compact growth. Stems are strong and flowers fine for cutting. See illustration on page 22. \$1.75.

Improved Lafayette. Large; semi-double; cherry-red. Very strong grower and profuse bloomer over a long season. Ideal for borders or group plantings where Floribundas are most effective. \$1.25.

Jiminy Cricket. Plant Patent 1346. 1955 All-America Winner. A striking Floribunda produced in great profusion on a vigorous bush. Vivid tangerine-orange color in bud, changing to coral or vermilion as it opens, and finishing a shade of pink-coral. The flowers have the appearance of a deep and intensified Fashion, and the glossy foliage adds to its attractiveness. \$2.00.

Ma Perkins. Plant Patent 1143. 1953 All-America Winner. Most charming in color and form. Buds are coral with tinges of red and a touch of yellow at the base; open flowers are lovely coral-shell-pink. Compact and vigorous. A worthy companion of Fashion and Vogue. \$2.00.

Perle d'Or. The salmon "Sweetheart Rose." Much like Cecile Brunner in form; salmon-pink in color. \$2.00.

Pinkie. Plant Patent 712. A very lovely little Rose of perfect Sweetheart size and form. Deep pink, opening lighter. A most profuse bloomer, repeating over a long season. An All-America Winner of 1948. \$2.00.

Pink Rosette. Plant Patent 902. A new and lovely form in Floribundas. Beautiful rosette-shaped, small, double flowers borne in large clusters on a small, compact, healthy bush. Flowers are long lasting and very fine for corsages. \$1.50.

FLORIBUNDA ROSES

Red Pinocchio. Plant Patent 812. Very double, very dark red flowers borne in large clusters on a medium-sized, compact bush. Excellent for hedge and border use. A great bloomer in hottest weather, and a very satisfactory Floribunda everywhere it is grown. \$1.75.

Red Ripples. Brilliant scarlet in both bud and open flower; wavy petals; large clusters, vigorous bush. \$1.25.

Rosenelfe. Small, very double flowers in typical Floribunda cluster form. Rose-pink color; lasts long as cut flower. \$1.50.

Sarabande. Plant Patent 1761. All-America Winner for 1960. A brilliant and fascinating new Floribunda. The semi-double flowers are a unique scarlet-orange and somewhat larger than most of this class. Its spreading growth habit and compact form make it especially suitable for hedges and border use. It flowers throughout the whole Rose season, being profuse in summer when some other Roses slow down in the Lower South. While it will grow well in full sun, it will do very well even with a half day of sunshine. Much admired in our test garden the past several years. \$2.50.

Rose lovers everywhere will find membership in the American Rose Society most helpful and interesting. For \$5.50 yearly dues one receives every spring a beautiful illustrated Annual, the monthly American Rose Magazine, each issue full of interesting material, use of the lending library and personal help on Rose problems.

Remit direct to American Rose Society, 4048 Roselea Place, Columbus 14, Ohio.

FLORIBUNDA ROSES

The Fairy. A valuable ornamental plant for many uses. It gives hundreds of flowers at a time, keeps blooming from April to freezing weather and thrives with less care than most cultivated plants.

The small, sweet seashell-pink Roses come in big sprays continually. The plant growth is very thick and bushy, densely branching and densely covered with small, shining, pretty foliage right down to the ground, as pretty as boxwood and needs no spraying. It will grow to 4 feet in height and just as broad, or can be kept lower if pruned low each spring. \$1.50.

Rosenelfe. A well-nigh perfect Floribunda. Vigorous in growth, profuse and constant in bloom, with small, double flowers in typical Floribunda cluster form. Rose-pink color; lasts long as a cut flower. \$1.50.

Four Favorite Floribundas

Crimson Rosette. Dark red.

Goldilocks. Yellow.

Rosenelfe. Rose-pink.

Summer Snow. White.

The Thomasville Rose Show

April 28, 1961

Rose time in the Deep South is celebrated annually through the staging of the Thomasville Rose Show, the most spectacular flower show in the Southeast by the Thomasville Garden Club, assisted by the Chamber of Commerce and other civic groups. There will be tours of our Rose Test Garden, some other gardens, the Rose Shows and special exhibits at the Veterans Domiciliary.

The 1961 show will be one of great beauty, size and merit. If you miss seeing the Thomasville Rose Show you miss a delightful experience. All Thomasville welcomes you!

SNOWBIRD

Scarce Roses of Great Merit

In the back-yard garden of Misses Annie and Julia Wright is an old Tea Rose, Bon Silene, planted by the grandmother of those ladies 90 years ago! It has persisted with the minimum of care. Recently, Mrs. M. G. Nicholson told the Georgia Rose Society she has on the grounds of her residence at Athens a number of old Tea Roses ranging in age from 35 to 50 years, and that she has never sprayed or dusted these varieties one time. It is Roses such as these that show ours is a section ideally suited to growing Tea Roses, including climbing forms and the closely related Noisettes.

Most nursery catalogs do not offer Tea Roses, nor such other kinds ideally suited to Southern gardens as the Banksias, the Cherokees and Hybrid Perpetuals. Rather, most growers offer you Radiance, Paul's Scarlet and a few others, with which we have no quarrel. While admittedly many of the new Hybrid Tea Roses are outstanding, some of those shown in glowing colors will hardly justify the extravagant descriptions.

We agree that there is a fascination about the NEW. And our gardens should have new varieties. But, lest failure dampen our enthusiasm, let's plant more of the Roses that are time-tested and dependable. If today the old Tea Rose William R. Smith were a NEW variety, it would be featured in catalogs and advertisements throughout the land. Yet the flower is more double, more fragrant and more lasting than many of the Hybrid Teas we consider standard varieties. And this old Tea will be living when many other Roses have passed on.

"If a thing is old," said Capt. Eddie Rickenbacker in an address several years ago, "it is a sign it was fit to survive. The guarantee of continuity is quality. . . . Old-fashioned hospitality, old-fashioned politeness, old-fashioned honor in business had qualities of survival."

Tea and related Old Roses have survived because they were fit to survive.

After sixty-three years, we have come to believe that often there is little merit in the new, and to love Old Roses like old friends. And, speaking of "old," let us quote these lines from Mrs. Keays' "Conversation at a Garden Club"

"What do you call old?"

"Old Roses are those of type and class
Used in good gardens of the past."

"But when did the past end?"

Too Many Varieties?

"Are there too many varieties? Have you propagated every Old Rose you could lay your hand on?" Certainly not. We are not growing old varieties simply because they are "old." According to Richardson Wright in his "The Story of Gardening," there appeared three hundred China Roses, five hundred Bourbons, three hundred and fifty Noisettes, three hundred Hybrid Perpetuals and fifteen hundred Teas!

So the list in this catalog is relatively very short. Perhaps it does not contain *all* the best of the Old Roses, but we are listing the finest of those we have seen.

DUCHESSE DE BRABANT

THOMASVILLE NURSERIES

HJORT'S

Old-Fashioned Tea Roses

This group of Roses is perfectly adapted to the hot, moist summers of the Lower South, including Florida, and soils that are sandy, although the Teas grow all over the entire South in any good Rose soil.

Tea Roses were brought to Europe from China's gardens in the late 1700's. In northern Europe they were not well received, but in southern France they found conditions of climate and soil suitable and rapidly gained favor. Soon they were brought to America. They did not thrive in the North, but once planted in the South, especially along the Gulf and coastal areas, became immensely popular and outlived other classes of Roses.

Most Teas are not considered cut-flower varieties, but some produce large flowers on stiff stems. The best of these are Darling, Baroness Henriette Snoy, William R. Smith, Maman Cochet, Mrs. Dudley Cross and Mme. Lambard. A lot of the others are much better than generally believed. The pink varieties are the favorites in the Teas, for while the reds grow vigorously it is admitted none of them have color comparable to Crimson Glory and Etoile de Hollande, nor are there yellows like Eclipse and Soeur Therese—they are lighter. One does not plant Teas for flowers like Peace and Chrysler Imperial, but for profusion of bloom, ease of growth and length of life.

If you are not so sure you can grow good Roses by all means start with the Teas. You will love them for their dependable qualities. And really, they are beautiful!

All Old-Fashioned Roses are \$2.00 each, 3 for \$5.25, 6 for \$10.50, 12 for \$20.00, by Parcel Post, prepaid

Baroness Henriette Snoy. A comparatively new member of the Old-Fashioned Tea group, and one of the most beautiful and satisfactory of Roses for Southern gardens. The lovely, pointed buds and large, double, well-formed flowers are peach-pink, shaded cream, and are freely produced on vigorous stems. The bush is spreading and vigorous, with abundant, heavy foliage, and most resistant to blackspot. We are the only firm in America to offer this Rose, and many who have seen it in our gardens and fields consider it to be the finest of the Teas, which is saying much, for there are other choice ones.

Bon Silene. Deep rose to carmine, almost red in the fall; large and fairly double. Miss Julia Wright in Thomasville has one her grandmother planted over 90 years ago. Like to plant one for your posterity?

Catherine Mermet. Flesh-pink, edges tinted lilac-pink. Buds well shaped; flowers fairly large, double, fragrant.

Darling. A "new" Old-Fashioned Rose. Originated in California and called a Hybrid Tea, but here it has such dominant Tea characteristics that we must put it in this group. Large, double, deep rose-pink buds and blooms on a very vigorous and easy-to-grow bush. Most of the pink Tea Roses are on the light side; here is one that is definitely a deep pink. By special arrangements with the introducer, we were privileged to introduce it last season. We like everything about this Rose except the name, which seems to indicate that it might be small, but Darling is a large Rose. We wanted to call it Southland Beauty, a name it deserves.

Being an "old" variety is nothing against a plant. Rather, the old varieties that remain in favor occupy a unique position, for they stay with us strictly on merit.

BARONESS HENRIETTE SNOY

Cecile Brunner. The "Sweetheart Rose." One of the treasures of Old South gardens, just as valued today as in the past. A Tea-Polyantha hybrid, also classed as a Floribunda, which develops into a large, vigorous bush producing an abundance of small, double, light pink blooms in clusters over the entire Rose season.

Duchesse de Brabant. Soft shell-pink. Bud short, globular; open, cupped flower. Growth vigorous and hardy. This dependable old Tea continues to be a great favorite.

Etoile de Lyon. Deep saffron-yellow; large, very double and fragrant. Considered by many to be the finest of the Teas of yellow shading. We are glad we have enough of this variety to offer it this season.

Freiherr von Marschall. Carmine-red; double, vigorous and constant. A fine old Tea Rose.

Gruss an Teplitz. This old Hybrid China Rose has some Tea blood in it. Dark, velvety scarlet; spicy fragrance. Bush very strong and prolific; flowers fairly double.

Lady Hillingdon. Deepest yellow of all Tea varieties. Bud long pointed; flower semi-double, fragrant. Bushy growth; bronze foliage. A favorite Tea Rose.

Louis Philippe. (China.) This is a most unusual Rose of deep red color. Foliage dark and glossy. Compact and vigorous in growth, it is used extensively as a hedge Rose and blooms profusely over a long season. In fact, in mild seasons it blooms throughout the winter in Florida and Gulf Coast areas.

Old-Fashioned TEA ROSES

La Sylphide. A Tea Rose of wonderful growth and flowering qualities. Semi-double flowers, almost the color of Pink Parfait shown in the Grandiflora section. Not rated a cut-flower variety, but excellent for growing into a large bush of colorful bloom.

Maman Cochet. Clear silvery pink. Long-pointed bud and large, fragrant flower. This variety does not grow off so rapidly as such Teas as Mrs. Dudley Cross and Mme. Lambard but eventually makes fully as large a bush. One of the best cut-flower Teas.

Marie van Houtte. Canary-yellow; petals tipped lilac-pink. In fall or during a mild winter the flowers show an enchanting lavender cast not seen in any other Rose. Foliage is dark and abundant; growth vigorous and compact. A very lovely and rewarding Tea Rose.

Minnie Francis. An excellent old Tea Rose we thought had been lost. We are glad to have definitely found it and are privileged to offer it again this year. An extremely vigorous grower, well branched, producing flowers much on the order of Mme. Lambard but not quite so dark.

Mme. Lambard. This Rose is one of the great favorites of those who have Tea varieties. In the spring it is carmine-pink, shaded salmon, a little lighter in summer. In fall it is almost red, when it is in its glory. A rank grower and profuse bloomer over a long season that extends into cool weather.

Monsieur Tillier. Sent to us as a red Tea with small blooms like Cecile Brunner. But in the Lower South it grows into a larger bush than a Floribunda, and the flowers are larger. Small, very double, brick-red blooms.

Mrs. B. R. Cant. Deep rose to light red; large, double flowers. Vigorous and profuse; bush is one of the largest of all varieties. One of the best of Tea Roses, it is a great favorite in many places in the South, such as New Orleans, Mobile, Florida and the Carolinas. Ranks right along with William R. Smith, Baroness Henriette Snoy and Mrs. Dudley Cross, and ought to be in every Tea Rose collection.

Mrs. Dudley Cross. Most vigorous of the yellow Tea Roses. Canary-yellow, long, Cochet-like buds, opening light yellow and gradually developing tints of pink—a fascinating combination. This rank-growing, showy and completely satisfactory Rose should be among the first in any Tea collection.

Mrs. Dunlop Best. Perhaps Mrs. Dunlop Best is best described as a glorified Safrano, being larger and deeper in color. A good cut-flower Tea much admired by those who have seen Tea Roses in our gardens and fields the past few years.

Mrs. Herbert Stevens. Bud long pointed, white slightly tinged pink; open flower fairly large and double, pure paper-white. Typical strong Tea growth and free bloom.

Old Gold. A fine, rare and lovely old Tea Rose. It is more pink, than gold—deep pink, shaded gold. Beautiful pointed buds and fairly double flowers. A large bush, blooming freely.

Perle d'Or. A Tea-Polyantha hybrid, called the Salmon Sweetheart Rose, having the same "baby" double flowers in clusters as does Cecile Brunner. At Thomasville it is a great favorite. Some bushes are thirty years old or more in gardens here. It grows 8 feet tall.

Princesse de Sagan. The best dark red Tea. Semi-double flowers borne profusely on a very vigorous and much-branched, easy-to-grow bush; velvety crimson, shaded purplish. At Thomasville it is a favorite, blooming over a long season, often having a few blooms in a warm spell in the winter.

Tea Rose WILLIAM R. SMITH

One of the great
Roses of all time.

Rosette Delizy. Fairly large, full, well-formed, cadmium-yellow, with apricot reflexes, outer petals deep pink. Growth very vigorous; profuse bloomer.

Snowbird. Bud long pointed; flower double, high centered, very fragrant; white with creamy center. Foliage leathery. Like other Teas, highly resistant to blackspot.

Snowflake (Marie Lambert). Small, semi-double, pure white blooms borne profusely in clusters over a long season, on a vigorous bush. It can well be used with colored Floribunda Roses. Greatly prized at Thomasville.

Souv. de la Malmaison. (Bourbon.) Very large, double flower; creamy flesh-pink with rosy center; highly fragrant. A famous old Rose, dating back to 1843, still lovely and still satisfactory.

White Maman Cochet. Sport of Maman Cochet. Long-pointed, white buds, tinged pink, opening into large, double, fragrant flowers. Since its introduction in 1896 it has steadily maintained its position as the leading and best white Tea Rose. While some Teas are not rated as cut-flower Roses, this one is, and should be in every garden of Tea varieties.

William R. Smith. Evaluated by many the finest of all Tea Roses. More people write us or tell us when they visit our garden and fields, of their love for this Rose and their success in growing it, than any other in this group, and there are other Teas of great merit. Beautiful, pointed buds open into large, double, light pink, fragrant flowers, produced on long, stiff stems with a few large thorns. Grows well all over the South and in Cuba. In the Southern tip of Florida it has been called the "Key West Rock Rose," although that seems a peculiar name for a Tea variety that makes so large a bush. William R. Smith should start any collection of Tea Roses.

In limited supply we have a few other Tea varieties.

Hybrid Perpetual ROSES

Frau Karl Druschki (White American Beauty). This is the one pure paper-white Rose without a tinge of pink or lemon. Very large and double. In the Southeast repeats in blooming.

Paul Neyron. Greatest of all pink Hybrid Perpetuals. Immense, cup-like bud; perfect, well-formed flower. A grand old Hybrid Perpetual.

Prince Camille de Rohan. Extremely double and well-formed flowers of deep velvety maroon. Rich fragrance. Sometimes blooms again in autumn.

All Hybrid Perpetual Roses, \$1.50 each, 3 for \$3.90, 6 for \$7.50, 12 for \$13.20

BLOSSOMTIME
Profuse spring,
summer and fall

Belle of Portugal. LR. Long-pointed buds open into large, semi-double, light pink flowers. Glossy foliage. Rank grower, producing a profusion of bloom in the spring. \$2.00.

Blaze. Cl. Brilliant red sport of Paul's Scarlet. Blooms heavily in spring and repeats throughout summer. Rich, leathery foliage. Vigorous growth. Very showy anywhere it is used. See illustration on page 28. \$1.25.

Blossomtime. Se.Cl. Plant Patent 1240. Superior in every way. Pleasing light rose-pink, some blooms on single stems, some in clusters. Consistent bloomer throughout spring and summer. Foliage large and abundant; growth very vigorous. A pillar-type variety. \$2.50.

City of York. LR. Semi-double; pure white with golden stamens. Dark, glossy foliage. Awarded Gold Medal of American Rose Society. \$1.50.

Cl. Cecile Brunner. Cl.Pol. A strong climbing form of the "Sweetheart Rose." Bears a great profusion of tiny double light pink flowers on a very robust-growing plant. \$2.00.

Cl. Columbia. Cl.HT. A fine climbing sport of the bush Columbia, bearing silvery pink flowers on good stems for cutting. \$1.50.

Climbing Roses

Cl. Crimson Glory. Cl.HT. Plant Patent 736. Rich crimson-red, very large, double and fragrant. Bush extremely vigorous. Flowers throughout all the Rose season. The most admired red climber in our collection. \$2.75.

Cl. Devoniensis. Cl.T. White, faintly tinged pink; large, double. Strong growth, recurrent bloom. A great favorite where it is known. \$2.00.

Cl. Etoile de Hollande. Cl.HT. Deep crimson-red; semi-double. Vigorous, prolific; flowers over a long season. \$1.25.

Cl. Papa Gontier. Cl.T. One of the very best of red climbing Roses for the Lower South. A very vigorous, long-running climber. A large bush will produce many fine, semi-double, rose-red blooms with stems long enough for cutting. \$2.00.

Cl. Peace. Cl.HT. Plant Patent 932. A perfect climbing sport of the famous Peace. Very robust in growth, producing heavy canes, large glossy foliage and plentiful bloom for a large variety. For anyone who cannot grow bush Peace well, we advise using this climber. From it you can cut many fine flowers on stiff stems, just as if it were a bush variety. \$2.25.

Cl. Queen Elizabeth. Cl. Gr. Plant Patent 1615. A vigorous and free-flowering sport of bush Queen Elizabeth, bearing soft carmine-rose and dawn-pink blooms on almost thornless stems, early spring to late fall. \$2.75.

Cl. Talisman. Cl.HT. A vigorous sport of bush Talisman; identical with its parent in form and color. Those who have not done well with the bush variety should try this climber; it is very strong, showy and dependable. \$1.25.

Cloth of Gold. N. A very rare and vigorous old Noisette. Performs like a Climbing Tea Rose. Will climb 30 feet or more. Deep yellow; fragrant; repeats some. Easily one of the best Noisettes. \$1.75.

Elie Beauvillain. N. One of the most beautiful and profuse of all vigorous climbing Roses for the South. Large, full flowers of shining rose-pink with yellow base. A truly wonderful old variety. \$2.00.

Gloire de Dijon. N. Where Elie Beauvillain is pink with yellow base, Gloire de Dijon reverses the combination. Both are extremely vigorous, not given much to repeat bloom, but oh, what a magnificent show in the spring! Still a favorite after more than 100 years. \$2.00.

Grossherzog Ernst Ludwig. N. Commonly called the pink Marechal Niel. Large, double, fragrant, Marechal Niel-like blooms borne freely on a very rank-growing bush. Easy to grow. Give it plenty of room, and it will be a wonderful sight. Pink, shaded yellow. \$2.00.

Guinee. Cl.HT. Very large, double, dark red; vigorous. \$1.50.

Lamarque. N. Pure white with lemon center; medium size, double, fragrant. Because of its excellent qualities this old Rose, given us by Marechal of France in 1830, still graces many Southern gardens. \$2.00.

Marechal Niel. N. Long a favorite old climber of the South. Double, fragrant, deep yellow. \$2.50.

New Dawn. Cl. An everblooming form of the lovely light pink Dr. Van Fleet. \$1.50.

Pink Cherokee. Lovely, Dainty Bess-like pink blooms borne profusely in the spring on a typical Cherokee plant of strong habit. A distinctive old Southern Rose. \$2.00.

Reine Marie Henriette. Cl.HT. One of the best old climbers. Vigorous in growth, producing many cherry-red blooms, fairly large and double. \$2.00.

Reve d'Or. N. Buff-yellow; medium size; fragrant. Foliage rich green, extending to base of plant. A free-blooming climber that is a great favorite at Thomasville. \$1.75.

Solfaterre. N. A very fine member of the old Noisette group. Large, lemon-yellow blooms, double and fragrant, borne abundantly in repeating surges throughout the Rose season. \$1.75.

White Banksia. The Banksias are always the first Roses to bring in the spring. They flower in winter in Florida and often start before the end of February at Thomasville. While Banksias may be trained on arches or pergolas, often they are tied to pines or other trees and reach a height of more than 30 feet. White Banksia has a delightful violet fragrance. \$2.00.

White Cherokee. A great favorite everywhere used, and the State Flower of Georgia. Large, single, pure white blooms borne profusely in earliest spring on strong canes with glossy foliage. \$1.50.

Yellow Banksia. While this one is not fragrant, it has all the other characteristics of White Banksia. Beautiful, small, very double flowers in clusters cover the plant. Always the first Rose to bloom at the end of winter. \$2.00.

We ship Rose plants from November 1 to March 31. A minimum order should be \$3.50. Otherwise please add 50c for postage and handling.

BLAZE

The LIRIOPE

A brilliant and useful border plant, long used at Thomasville, and becoming increasingly popular all over the South. No one who has seen the Liriope at Thomasville will ever forget the sight. Liriope is a remarkable plant. It will grow in rather heavy shade or in full sun and in very dry locations but is more luxuriant where there is enough moisture. It is used to border walks and beds, on slopes to prevent washing, as a ground cover, in porch boxes and as potted plants. It averages 15 inches in height when fully developed. Plants may be set 1 foot apart to make a continuous line.

It is easy to grow and thrives best in light, enriched soils but persists in hard and heavy soils. Though it blooms anywhere, the foliage is of better dark green when grown in partial shade. Set the plants any time of the year the ground isn't frozen; several years later they may be taken up and divided into at least four times the quantity. Because they bloom in late spring and throughout the summer, the Liriope is wonderful to use with Daylilies. But Liriope is colorful anywhere it is used!

Majestic. A very superior Liriope grown in the best gardens of Thomasville a long time, since being brought here from England and first used on Mill Pond Plantation. The spikes of blue-purple flowers stand erect above wide, dark green foliage. Many flowers are coxcomb in form, making this strain most attractive and unusual. Majestic, like other varieties, is grown from divisions, the only way to keep it genuine. Blooms all summer. 30c each; \$3.00 for 12; \$20.00 per 100.

LIRIOPE, MAJESTIC

Bluespire. A new, extra-early and distinctive Liriope. The flower spikes are very erect and somewhat longer than other Liriope, and the bluish lilac flowers are borne in great profusion. The foliage is not quite so wide as Majestic Liriope. Bluespire is our origination. This showy variety begins blooming in May, fully three weeks ahead of most Liriope, and continues for some weeks. It is a lovely blue flower to use with Daylilies, especially shades of yellow, pink and the pastel variations. 30c each; \$3.00 for 12; \$20.00 per 100.

Lilac Beauty. Darkest lilac-purple, with dark green foliage. Flower spikes are straight and uniform and stand well above the foliage. Its season of flowering is June to August. Bloom spikes are abundant and stand out above the foliage most prominently continuing longer than most Liriope. Lilac Beauty is the finest Liriope creation of Mr. George Riegel, and we are glad to be privileged to offer a new plant of such great merit. 75c each; \$7.00 for 12; \$50.00 per 100.

Sheffield. A good selection of *Liriope muscari*. Not as compact a flower as Majestic, but spikes are long and of deep bluish purple color. The foliage is wide and the plant very hardy. Like other varieties we grow it strictly from divisions. (We raise no seedlings, which mostly revert to very inferior plants.) Liriope Sheffield is a fast multiplier, enabling us to offer it at the lowest price. 15c each; \$1.50 for 12; \$10.00 per 100.

Silvery Sunproof. The best variegated Liriope, and another excellent variety from Mr. Riegel. Wide, white and green striped leaves and long, deep violet-purple, erect flowers in profusion. 50c each; \$5.00 for 12; \$40.00 per 100.

6 or more plants of any Liriope at the 12 rate; 40 or more at the 100 rate. We pay transportation; all are delivered prices.

Our Liriope are mostly vigorous, 1-yr., bed-grown plants or divisions of 2 or more bibs. You will enjoy these lovely Liriope. Try bordering some Daylily beds with Bluespire or Silvery Sunproof.

LIRIOPE, BLUESPIRE bordering walk

Top, CABALLERO Bottom, GEORGIA

HEMEROCALLIS

Daylilies

The growing of top-quality Daylilies has become quite a specialty with us. We won't have all the new Daylilies as fast as they appear—nobody does—but we continually add some of the best, to appear in a new list next spring. In the meantime, many fine ones have come down in price, as shown in this catalog. And nowhere in America are better plants grown than here. We will send you fine plants, grown in sterilized soil, free from any pests, and will ship promptly.

All 50c Daylilies are 12 for \$5.00, 6 or more at 12 rate.
All \$1.00 Daylilies are 12 for \$10.00, 6 or more at 12 rate.
All \$1.50 Daylilies are 12 for \$15.00, 6 or more at 12 rate.
All \$2.00 Daylilies are 12 for \$20.00, 6 or more at 12 rate.

In ordering Daylilies as priced above, you may select as desired. For example, in ordering 12 plants you may select as many as 12 different varieties, or any way you wish in that price group.

All Daylilies priced at \$2.50 or more are Net.

Orders for \$3.50 or more to one address are shipped parcel post prepaid. On orders for less than \$3.50, please add 50c for postage.

A SEPARATE DAYLILY CATALOG OR PRICE LIST

will hereafter be issued in the spring, with complete descriptions. Most of you have received catalogs and price lists already that describe most of our Daylilies. Don't wait for the new booklet—order now, let your plants grow over winter. Each fan planted now will be two or three next spring. Most of the Daylily plants we ship are strong plants with two fans or more.
